Meet the Studio HD580-4K

Creating a top-notch, professional, multi-camera live production is easy with the Livestream Studio HD580-4K from NextComputing — no personnel or racks of hardware required.

Distinctive design, built for easy setup and production

With its beautiful and portable design, the Livestream Studio HD580-4K comes with a built-in 17" display and carrying handle, so you can arrive ready at your destination for a full multi-camera production.

Stream from anywhere, reach viewers everywhere

The Studio HD580-4K comes with Livestream Studio live production encoding and switcher software pre-installed, so you can easily create high quality productions from day 1. Stream seamlessly with our native integration to Livestream and Vimeo platforms, or expand your reach by streaming to Facebook, YouTube, X, or any other RTMP-enabled platform.

The HD580-4K is also perfect for streaming from remote locations, or anywhere with bandwidth limitations, with Studio's bonded networking feature.

No matter where you reach your audience, the HD580-4K ensures a broadcast quality experience with streams in up to 4K resolution.
